DETAILED ACTION

1. Receipt is acknowledged of the Appeal Brief received on 1-6-07.

EXAMINER'S AMENDMENT

2. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Philip Lyren on 5-11-07.

The application has been amended as follows:

Re claim 1, last line: Replace "previously used." with – previously used; wherein the secure document is a secure item of currency --.

Cancel claim 2

Re claim 3, Replace "claim 2" with – claim 1 --.

Re claim 8: Replace "document" with – item of currency --.

Re claim 10, first line: Replace "currency" with – item of currency --.

Re claim 10, last line: Replace "memory" with – memory; wherein the machine-readable information includes data of plural transaction in which the item of currency was previously used. –

Re claims 11-15, 17, 18, 20, 21, 54, 55, 56, and 57-62: Replace “ The currency of” with –
The item of currency of– in each instance.

Re claim 16: Replace “currency” with – item of currency – in every instance.

Re claim 19: Replace “currency” with – item of currency – in each instance.

Re claim 21: Replace “when the currency” with – when the item of currency --.

Re claim 52, first line: Replace “currency” with – item of currency --.

Re claim 53, last line: Replace “memory” with – memory; wherein the memory
comprises machine-readable information including data of plural transaction in which the item of
currency was previously used. –

Re claims 56, 58, and 60 (line 2 of each claim): Replace “currency” with – item of
currency --.

Allowable Subject Matter

3. Claims 1, 3-21, and 53-62 are allowed.
4. The following is an examiner’s statement of reasons for allowance: The prior art of record fails to teach the limitations of the independent claims, including that the secure document is a secure item of currency that includes data of plural transaction sin which the secure document was previously used, stored in the memory of the currency (re claim 10, that the item of currency stores authentication information indicating whether a radio frequency reader device is authorized to communicate with the currency so that data can be read and written to the memory (re claim 10), that the item of currency has a security module attached to the fabric comprising a memory storing information about the currency and an ink reservoir which releases

ink when the secure module receives a predetermined command (re claim 19), and the item of currency has a memory comprising machine readable information including data of plural transactions in which the currency was previously used (re claim 53).

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Conclusion

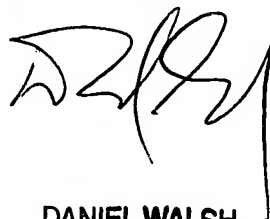

5. The prior art made of record and not relied upon is considered pertinent to applicant's disclosure (See PTO-892), specifically noting that Moskowitz et al. (US 5,528,222) teaches a passport, but not an item of currency, comprising storing machine readable information of plural transaction in which the secure document was previously used, and US 2004/0233040 teaches that controller 4a of the document accesses circuit 4f to determine if the reader can access the document, but does not teach the document is a currency.
